# Matthew Montoya

Full Stack Web Developer

## Summary

I am a full-stack developer with a background in retail management. I am passionate about meeting clients' needs, solving problems, and working with CSS! Based on my past experience, I look forward to working with teams to build interactive and responsive applications!

## Experience

**2018-03 - 2018-06**

### Web Development Immersive
**General Assembly**

Completed a 12- week, 600+ hour Web Development Immersive program in which I developed and deployed three full-stack applications while using the industry's best practices. Two of the projects were done independently and one was developed in a team environment.

**Full-stack projects include:**

**JamMate**
- JamMate is a full stack application created with the intention of allowing authenticated users to connect with local artists based on the type of instrument(s) they play and their music genre.
- This project was developed using HTML, CSS, JavaScript, jQuery and Handlebars for the front-end client. The back-end was constructed using Ruby on Rails.

**Sserpdrow**
- Team project in association with Patrick O'Day and Sparrow Rubin.
- We developed a full-stack application that would allow authenticated users to create web pages and blog posts.
- This application was developed using Express.js, Mongoose, and MongoDB to construct an API.

**Pro[Stock] Systems**
- Pro[Stock] Systems is a full-stack application developed with the intention of allowing authenticated users to be able to keep track of their personal inventory.
- As inventory levels change, the user will be able to updated or delete inventory based on their needs.
- This project was developed using HTML, CSS, JavaScript, jQuery and Handlebars for the front-end client. The back-end was constructed using Ruby on Rails.

**2014-07 - 2018-03**

### Assistant Manager
**Tumi**
- Hired, trained, coached, and developed a strong team.
- Monitored, maintained, and verified inventory accuracy and product levels.
- Managed shipments and ensured timely delivery.
- Strived to drive sales to meet monthly and yearly goals.
- Audited daily receipts and bank deposits.
- Created monthly schedules and audited payroll.

## Education
